

Embedded Terminal for MFP EPSON

The **eTerminal-Epson** embedded terminal works with the Epson Multifunction's and enables the communication between the MFP and the **Gespage** server.

Accessible from the touch screen of the Epson MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.

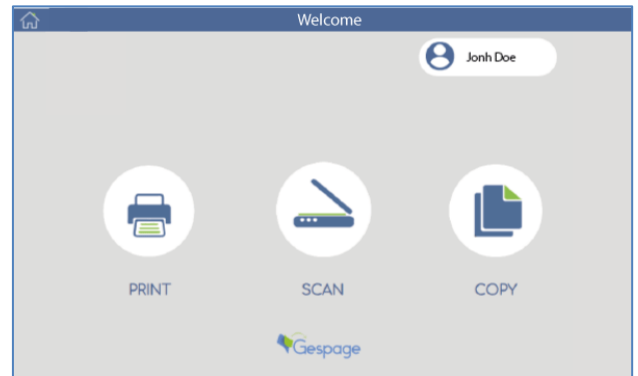

This embedded terminal fully fits into the touch screen of the Epson Multifunction's.

Scheme of the network configuration

The embedded terminal benefits

- ✓ Personalized welcome to the identified user.
- ✓ Selection of the documents to print.
- ✓ Accounting on Gespage server and payment of prints, copies, scans and prints from USB keys.
- ✓ Secure use of the Epson MFP by login, login/password, code, card (badge reader in option).
- ✓ Management of scans to email, home directory or USB key.
- ✓ Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Management and configuration of the terminal from a user-friendly web interface.

- ✓ The intuitive user interface allows a quick start from the first use.
- ✓ Display of the user credit before and after the operation, as well as the tariffs of prints (A4, A3, B&W, Colour).
- ✓ The user may select one or several documents from the list in the print queue for release them, delete the or leave them in the queue.
- ✓ Copies, prints and scans are managed directly on a same interface.
- ✓ A quick identification thanks to the contactless badge reader (in option).

Specifications

- ✓ With the TCM3/TCM4 option, compatibility with most RFID cards.
- ✓ Compatible with the equipment featuring the Epson Open Platform (EOP) technology.
